# QUATRO WIRELESS POWER BANK
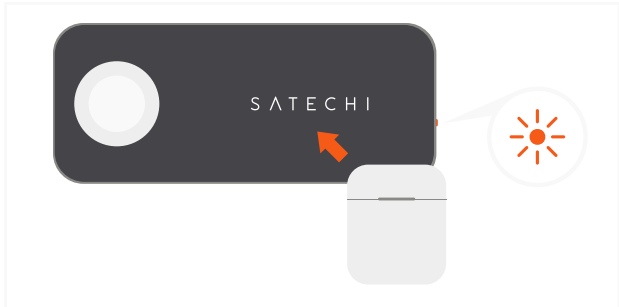

1 Before use, please fully charge the Quatro Power Bank via USB-C port using its included cable.
Four LED lights will illuminate when fully charged

2 Turn on the power bank by clicking the side button once. Once powered on, activate the Apple Watch and Qi charger by double clicking the side button.
Blue LED light will turn on

x2

3 Place a compatible Qi wireless device on the Satechi logo. LED light will turn orange when charging begins.
Max output 5W

**4** Place an Apple Watch, display side up, on the module to begin charging.
Max output 2.5W

5 Use the USB-C PD port to quickly recharge the power bank, power Type-C tablets or fast charge compatible devices. Fast charging requires an USB-C to Lightning cable (sold separately).
Max output 18W input/output

6 Use the USB-A port to charge an extra USB device – such as an iPhone or AirPods.
Max output 12W

7 After use, power o the device by press and holding the power button until LED lights turn o .

8 An orange LED light (FOD) will flash if a foreign object, such as metal, is detected. The light will stop once the item is removed.

FOR BEST USE, WE RECOMMEND CHARGING UP TO THREE DEVICES AT A TIME.
