About AVerMedia	5

Introduction

The AVerMedia AI Speakerphone AS311 is an easy-to-use device that provides uninterrupted communication when working from home by suppressing background noises so no one will hear your baby crying, your dog barking, a leaf blower outside, construction, traffic, and any other distracting noise.

USB-C Port

Key Features

AI-Powered Noise Suppression

Reduce background noises for professional meetings from

360° Audio Coverage

Built-in omni-directional microphone and speaker will pick up and transmit sharp sound in all directions, turning any room at home into an enterprise-grade conferencing space.

USB Plug and Play

Set up and use with easy USB plug and play connectivity. Just plug it in to **your computer's USB port.**

Acoustic Echo Cancellation

Removes echo and reverberation so you can hear and be heard with clarity, even in small, compact rooms.

LED Touch Controls

Silent touch controls with LED indicators to quickly adjust the volume or mute yourself without transmitting audible noise.

Compact Design

Compact design to help you easily place and use at home.

Extensive Compatibility

Compatible with leading video conferencing platforms such as Zoom®, Microsoft Teams®, Google Meet™, GoToMeeting®, Cisco Webex™, and more.

System Requirements

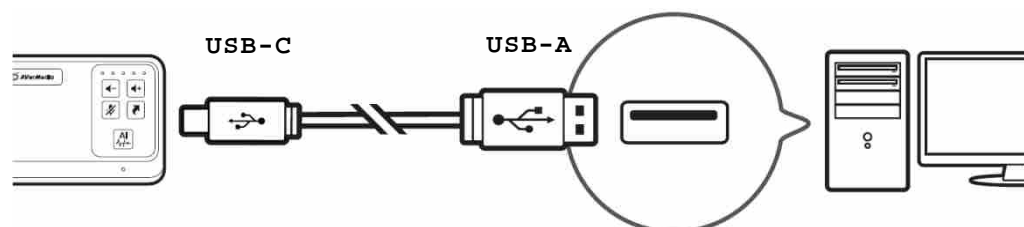

Operating system:

- Windows: Windows 10 or later
